(Incorporated.)

Tell your friends about the Madison
County Fair. Four days of continual
pleasure for those who attend. Sept.
10 to 13.

Little Leonard Smith the 8 year old
son of W. R. Smith, of Marksburg,
who was badly bitten by a dog last
week is slowly improving.

Work on the new hotel is progress-
ing rapidly, the concrete foundation
being almost complete and all neces-
sary material being on the ground.

Miss Julia Reid has moved her dress-
making establishment to rooms at
Mrs Lee Brown's, on Lexington street,
where she will be glad to have all her
customers call to see her.

Rev J. I. Walton, of Boone county,
has just closed a protracted meeting
at Wallaceston, which lasted fifteen
days and during which there were
fifty-one additions to the church, for
ty seven of whom were baptised.

Notable Dates.

From Sunday evening until Monday
evening was the Jewish New Year
and the 18th inst. will be Yon Kippur,
or the Jewish Day of Atonement, two
notable dates in the Jewish year.

Public Speaking.

Hon S. W. Hager Democratic Nom-
inee for Governor of Kentucky, will ad-
dress the citizens of Garrard County,
at the Court House in Lancaster on
Friday, September 13, '07 at 2 o'clock
p. m. The public is cordially invited
to be present. Ladies specially
invited.

Some Good Singing.

The quartette, from Berea, who did
such delightful singing at the teach-
ers institute, was composed of Messrs
Ralph Right, Will C. Gamble, Geo G.
Dick and John Henry. Their visit
was greatly enjoyed by the teachers,
as well as by the public. We trust
they will make another visit to Lan-
caster in the near future.

Richmond Fair Saturday.

The Richmond Climax says:—On ac-
count of the rain yesterday the direc-
tors of the fair decided to run the fair
through Saturday. In consequence
of this change, children's day which
was to have been Thursday has been
postponed until Friday and on that
day all children under twelve years old
will be admitted for 15cts. Instead of
Friday being the last day, the fair will
not close until Saturday afternoon.

Died in Indiana.

Mrs Mary Allen, wife of W. L. Allen,
died at her home in Anderson, Ind., on
last Wednesday morning at an early
hour. She had been a sufferer for some
weeks. She was a member of the
Christian Church, and bore her afflic-
tions with fortitude. She leaves
a husband and seven children who
accompanied the remains to its
last resting place in Paint Lick Ceme-
tery. Mr and Mrs Allen were former
residents of this county and bore the
respect of all who knew them.

McCreary's Opinion.

In an interview at Washington Sen-
ator McCreary said that the entire
Democratic ticket from Governor to
Commissioner of Agriculture will be
elected. When asked about the presi-
dential race he said although it is ear-
ly, Democrats are discussing the con-
test with much interest. He gave it
as his opinion that Kentucky would
cast her votes in the nominating con-
vention in 1908 and at the November
election for William Jennings Bryan,
and he said many Kentuckians were in
favor of a Southern man for Vice
President.

Take Charge of Barytes Mines.

Mr Askew Hurt, who has had charge
of the barytes mines in this county,
was transferred to South Carolina last
week, where he will have charge of the
company's business there. The work
here will be in charge of Messrs Joe
Peak, Sam Jesse and Hughes Aldridge.
The company wants all the barytes
they can get, as the Garrard county
article is better than can be found else-
where, so we are told. Mr Hurt made
many friends while in Lancaster, who
trust he will come back soon.

Tobacco Crop Being Housed.

In every county in Central Kentucky
planters are busy cutting tobacco and
housing it. Indications are that the
crop will be short owing to the poor
seasons. There is much late tobacco
and the scarcity of hands, the cool
nights which cause the tobacco to be
brittle until late in the morning, are
greatly retarding the harvest of the
crop. From everywhere comes the
cry of scarcity of labor and the farmers
find themselves face to face with a
labor crisis of alarming proportion
with apparently no relief in sight.

They're Causing Trouble.

Work on the new hotel has been
greatly handicapped and delayed by
reason of strikes by some of the hands.
The ones who have caused the most
trouble are receiving \$1.50 a day, but
they continue to want more. If they
will stop and consider for a moment,
they will remember that the people of
the town put up the money to build
the house without charging a cent of
interest. It is a public improvement
which has caused great trouble and
worry to get, and work hands who are
getting living wages should take hold
and help build it instead of pulling
back.

Eld F M Tinder will fill his pulpit in
Lancaster next Sunday at the usual
hours.

Some Fine Ones

W B Burton and Mack Hughes ship-
ped a car load of fine horses to Rich-
mond this week to show at the fair.
From there they will be shipped to
the State Fair at Louisville, to be
shown.

Sunset Meeting.

On next Sunday evening the Chris-
tain Endeavor of Pleasant Grove will
have a Sunset Meeting, beginning
promptly at 5 o'clock. The meeting
will be held on the church lawn.
Everybody invited.

Fine Jersey Cows.

R E Henry will be here from Athens,
Tenn, last of this week with a car load
of extra fine Jersey cows, which will be
sold at a very reasonable price. If you
want one of these cows, telephone
Solon Henry, at Lancaster Cemetery.

Names Wanted.

Prof Lippard wants the names at
once of all the young people interested
in entering the Lancaster Business
College. Three more needed to secure
the opening. Nothing pays like a
thorough business education. Address
Prof Lippard, Richmond, Ky. 4t

Example of Industry.

A certain young woman near Mc-
Creary, has, unaided, woven 100 yards
of rug carpet and picked and sold 235
gallons black berries, beside doing all
the house work for herself and moth-
er. Dont all you old bachelors come
at once.

Graded Schools Opens.

The Lancaster Graded Schools open-
ed Monday morning with a larger at-
tendance than ever before on opening
day. Religious services were conduct-
ed, and quite a number of friends of
the institution were present. The
school was never in better condition,
and with the able teachers there is no
doubt of great good being accomplished
during the session.

Bro Tinder's Successful Meeting.

Rev F M Tinder has just closed his
meeting at Ford, which was a most
successful one, both in point of con-
versions and awakening of interest.
The crowds were so large that meetings
for the women had to be held in after-
noon and those for men at night.
There were 53 additions to the church.
In a note to The Record office he says
"I am anxious to get home. I want
to see my people and be with them in
their troubles. May God bless you all
and lead us to His glory."

George T. Arnold Dead.

After an illness lasting for several
weeks, George T Arnold died in this
city Sunday morning. While he had
been in bad health for some time, yet
there was nothing serious until a short
time ago, when he grew rapidly weak-
er. The deceased was one of the best
known men in the county, having
come from one of the most prominent
families, and residing here all his life.
He was a genius, having invented sev-
eral articles that attracted wide atten-
tion. There is no doubt that the man
who invented the car couplings now
required by law to be placed on all rail-
way cars, got his idea from a coupling
Mr Arnold invented and which he lost
by some trickery practiced on Mr Ar-
nold in the sale thereof. He is sur-
vived by five children—two boys and
three girls. He was a clever hearted
man and liked by all who knew him.
Funeral services were conducted at the
Lancaster Cemetery Monday afternoon
Rev J H Williams officiating.

Get Together.

It has been said that every little
country village has an ambition to be-
come a trade center and a boom city,
with no special natural features or ge-
ographical advantages. Under such
conditions what's most needed is some
enterprise on the part of its local cap-
ital. They must make the first ad-
vance in the uncertain field of develop-
ment. They must capitalize small
factories and see that they are kept
employed. When the local business is
finally developed and proves to the
world that they are successful, then
outside enterprises will be sure to step
in and enjoy your prosperity with you.
Just like a fellow who finds a favorite
fishing hole and catches fish, and all
the other fishermen who see that he is
catching will drop their hooks right by
the side of the lucky fisherman. The
business men of any town should stop
talking and hoping for others to do
something for the town. They should
get together themselves and prove to
the world that they have a money
making town. No outsider will want
to fish in our swimming hole until we
prove that we can catch fish.

Watch For Right Wagon.

We call the attention of the public
to the fact that if they want their
work done by the Lancaster Steam
Laundry, they must watch for our
wagon. It is in charge of George
Hatcher. We'll call for your work, but
be sure and give it to our wagon and
not that of some one else.

Herndon Bros.

Rev J O Holmes, the prospective
Pastor, will preach at Lancaster Bap-
tist church next Tuesday evening,
Sept 17, at 7:30. All members are re-
quested to be present.

J M Acton, Chairman,
Pulpit Committee.

Karnak or great Mammoth dome.
Through coach on regular morning
train. See L & N Agent. 9 6-3t.

The School Improvement League.

Miss Belle Bennett, of Richmond,
organized "The School Improvement
League" in Garrard county. The ob-
ject of this League is:

1. To arouse interest in the educa-
tional conditions, problems and work.
2. To interest the people of the
county in the improvement of their
schools.
3. To establish a local league in
every school district in the county.

Miss Amanda Anderson, President,
Miss Eliza Ison, Vice President, W I
Williams, Treasurer and Secretary.

From present indications the Madi-
son County Fair, Richmond, Sept 10,
11, 12 and 13, promises to be the most
successful exhibition held in recent
years. Everything is being done by
those interested to have on this occa-
sion an excellent display of stock and
other products of the farm and home.
This will be a fair for everybody. 1t

In Memoriam.
Mrs. Ivy H. Beazley died Aug. 31st, 1907, after three weeks' illness of a complication of diseases. The subject of this sketch was born Jan. 17, 1867, consequently was 31 years old. She was the youngest child of the late S. A. Hill. In the autumn of 1876 she was married to R. H. Beazley and he with three small children are left to grieve for a loving wife and mother. She also leaves two brothers, T. O. and J. W. Hill and one sister, Mrs. Walker, and her mother, whose grief was pitiful to see. She joined the Baptist church, at Buckeye, when just entering womanhood and has been a most consistent member, not only in living up to the tenets of the church, but in every day life following the precepts of the Master. It was our sweetest pleasure to know her from childhood, and during these years she was ever the embodiment of gentleness, kindness and piety. During her school days she was quiet, yet proficient, just but never harsh. If she ever gave a cross word to a playmate, we never knew it and this same beautiful spirit characterized her whole life. "She was good." She was delicate from childhood and her loved ones must find consolation in this thought, the frail body is now free from pain in a "land that is fairer than day." The corruptible has put on incorruption and God's own has received His promised reward. The remains were laid to rest in the Lancaster cemetery, and the long funeral cortege was evidence of the esteem in which she was held. After prayer at the grave by Rev. Brown, in a casket of white, emblematic of her purity, and underneath a coverlet of flowers we laid her to "rest on in sweet unbroken sleep."

A Watermelon Story.
An exchange tells of a farmer in a neighboring county who, one Spring, had left on his hands several barrels of slightly soured watermelon. He planted a large patch of watermelons, and just to be projecting, poured about a quart of the molasses in each hill. The result was, he raised the largest and finest flavored melons ever raised in this or any other county. People came for miles to sweeten their teeth on the famous melons.

The South's Liquid Fuel.
Until recently the bringing to light of that other subterranean fuel, petroleum, was confined in the South principally to the lower Appalachian field. West Virginia alone yielded 42,680,374 of the total 42,726,652 barrels of oil produced in the South between 1887 and 1896. In that period the Kentucky-Tennessee field yielded but 44,467 barrels, and Texas, where the presence of oil had been known before 1861, had yielded only 1811 barrels. In 1901, however, following the spectacular "gushers" of Beaumont, the annual production of Texas rose from 836,059 barrels and reached in 1905 26,186,189 barrels. From this there was a decline in 1906 to 12,066,526 barrels. Meanwhile the search for oil, thus spurred, has expanded in Arkansas, Louisiana, Alabama and Indian Territory, resulting in very large oil developments in Louisiana and Indian Territory. The total production of the South in the past ten years has been 263,892,252 barrels, or more than six times the production of the preceding decade. Manufacturers Record, Baltimore.

HORSE TALK.
Some Points Worth Remembering About Man's Best Friend.
The little colt should have a feed twice a day of oats, bran and oil meal—3-2-1—beginning with a pint and increasing to a quart.
A colt fed in this way, and given a run in a paddock every day, will never have unsound feet and legs unless by accident.
Weak food will make a weak colt—weak legs and unsound joints.
As soon as the grass is frost-bitten, wean the colt if it is old enough, and give it the grain ration and second growth clover or alfalfa. If too young, give the mare plenty of nutritious food, and give them a roomy box stall at night.
Many colts are given ugly tempers by cruel and careless carrying.
To scratch and hurt a colt or horse will cause him to hate the operation and the operator.
Many curbs are knocked all out of shape and some of the teeth cut like knives.
Look at your curbs. They are often instruments of torture.
Teach the boys to use it gently and keep it in order.
Be generous in the use of the brushes but sparing in the use of the comb.
Good grooming should be done every day to keep the pores open, the skin healthy, and the hair silky. Soft hair is very warm and is a non-conductor of heat.
Never leave a reeking mess of wet straw and manure under the horses. It ruins the health and eyes, and is a disgrace to any horse owner.—Farm Journal.

RACK FOR HAY AND GRAIN.
How a Serviceable One Can Be Made of Pine.
A sheep trough should be made of pine. The one shown makes the most complete rack and trough I have ever used.
Grain and feed are both put in from top. The bottom is as wide as the top. There is no loss, as the bottom has a two-inch slide piece nailed to it. The slide passing by center piece alternately leave no place for anything to clog.—Charles Edminster, Lewis County, Mo.

We have purchased this thoroughbred Jersey Bull and desire to call the attention of the public to the fact that he is REGISTERED, and is the very best type to be found. He is by Venus Fox, imported from the island, an exceptionally fine animal even for the island, as his sire Flying Fox, for years was first prize winner. His dam was an exceptionally fine cow, giving in one year 12,000 pounds of milk. Another sister out of his dam was second prize cow over England in 1904. He will stand at \$2, payable at time of sale, Ring, either of us for further information.

Health in the Canal Zone.

The high wages paid make it a mighty temptation to our young artisans to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. THE Whitaker Automatic Gate.

Patented August 22, 1905

— BY —

NATHANIEL WHITAKER

of Richmond, Madison County, Kentucky.

- Why the Whitaker Gate is the best.
- 1st, It is made of first class material.
 - 2nd, It is stock proof.
 - 3rd, It has no dead center and will not stop half open when others give trouble.
 - 4th, It has no latch to get out of order.
 - 5th, It is a perfect lock when closed.
 - 6th, It has less lever motion than any other Gate.
 - 7th, It will work on any kind of Ground in a curved road and to any kind of post.
 - 8th, It is easier to operate than any other.
 - 9th, because every one that sees it says so.

Read what a few men of the county have to say who are using this gate

Paint Lick, Ky., August 14th, 1906.

I have one of the Whitaker Automatic Gates that I have used for about seven months. It has not been out of repair in the least, and has not given me one moment's trouble so far, and can't see how it will. I like it splendidly.

Respectfully, J. C. Rucker.

After using one of the Whitaker Automatic Gates, can say that it gives perfect satisfaction. I consider it the best gate I have ever seen. Would not do without mine for double the cost of it. Yours truly,

J. B. Woods.

Paint Lick, Ky.

I have owned one of the Whitaker Automatic Gates for some time. I have given perfect satisfaction and swings so nicely and works so easy that any child can operate it. My little four year old boy has no trouble in using this gate.

Very respectfully, S. D. Cochran.

Buckeye, Ky.

I was the first in this county to purchase one of these gates. I am well pleased with it and would not do without it one year for the cost of the gate. I advise every one that needs a good gate to buy one, they are all right.

A TRANSACTION IN FISH.

Market Man Had All Kinds, and Brides Made Her Choice.

A New England bride with slight experience in the markets of Manhattan entered an Eighth Avenue market last Friday morning. "What kind of fish have you?" she asked.

"Some nice German carp, ma'am. No? Well, then, some Gloucester haddock."

"From Gloucester?" asked the bride.

"Well, what they sell in Gloucester," replied the man of the seafood emporium.

"Oh, what are those?"

"Green shrimps from Rhode Island, ma'am. And we have lobsters from Nova Scotia, yellow perch from up state, carp from Muddy Ponds, near St. Louis, cod from the Cholora Banks, swordfish, blackfish or tautog caught in the sound."

Stopping to catch his breath and get the customer's measure, he went on:

"Sheephead from Peconic bay and also cold storage; shad, string beans from Long Island, hard shell clams haddock from Boston," here she hesitated, "mackerel from St. John's, Newfoundland; Block Island bluefish, the very best boat fish from Cape Cod, Gloucester and imported smoked finnan haddie, best New England domestic haddock, native eels from Long Island, Cape Cod and Long Island oysters; the very finest smoked and salt herring and mackerel."

"Well," and the bride looked dubious. Then, as though an inspiration had come to her, she said: "Give me about ten cents' worth of your best salt cod, the very freshest you have."

PLUM PUDDING ALL RIGHT.

The Lancet Says It is a Good Meal in Itself and Is Unjustly Blamed.

The London Lancet, which so often points out the terrible and unsuspected dangers to health encountered in every day life, publishes with reasonable optimism a hearty defense of the Christmas pudding.

"It is accused of indigestibility," says the Lancet, "but a synthetical combination of all the ingredients would indicate the reverse to be the case. For an individual enjoying average health the ingredients of plum pudding should offer no physiological stumbling block."

The paper then points out that the pudding is generally eaten after an extra large, hearty meal and unjustly gets blamed for what is really the result of overeating.

"The Christmas pudding," says the Lancet, "is a meal for a hungry man, for it is hardly possible to conceive a more complete food. Eggs supply plenty of proteid, salt a sufficiency of fat and bread crumbs, fruit and sugars a generous proportion of carbohydrates. Moreover, most of these carry the further necessities of human diet, namely, mineral salts."

HYOMEI CURES CATARRH

Its Healing Balsams Kill All Catarrhal Germs—Sold Under Guarantee.

There is no more common disease than catarrh, and none that is more dangerous. It weakens and debilitates the whole system, if it is allowed to run, leads to serious, and sometimes fatal complications.

It is a note-worthy fact that among the many medicines and treatments for catarrh, there is only one which is sold under a positive guarantee to refund the money if it does not cure, Hyomei, Nature's remedy for the cure of catarrh.

No dangerous drugs are taken into the stomach when Hyomei is used. Breathed through the small pocket Inhaler that comes with every Hyomei outfit, its healing balsams penetrate to the most remote cells of the throat, nose, and lungs, killing the germs of catarrh, healing the irritated mucous membrane, and making complete and lasting cures.

The complete Hyomei outfit, consisting of an inhaler that can be carried in the purse or vest pocket, a medicine dropper, and a bottle of Hyomei, costs only \$1. The inhaler will last a lifetime, while extra bottles of Hyomei can be procured, whenever needed, for only 50 cents.

We are selling a good many Hyomei outfits at this season, and we have so much confidence in the remedy that we guarantee to refund the money in case it does not cure.

RIVER QUICKLY MADE TO RISE.

Simple Explanation, But It Considerably Puzzled Northerner.

It is little short of astonishing to see how little water is required to float the southern river steamers, a boat loaded with perhaps 1,000 bales of cotton slipping along contentedly where a boy could wade across the stream.

Not long ago, however, the Chattanooga got too low for even her light-draft commerce, and at Gunboat shoals a steamer grounded. As the drinking water on board needed replenishing, a deckhand was sent ashore with a couple of water buckets. Just at this moment a northern traveler approached the captain of the boat, and asked him how long he thought they would have to stay there.

"Oh, only until that man gets back with a bucket of water to pour into the river," the captain replied. Presently the deckhand returned, and the state water from the cooler was emptied overboard. Instantly, to the amazement of the traveler, the boat began to move.

"Well, if that don't beat thunder!" he gasped.

The fact was that the boat, touching the bottom, had acted as a dam, and there was soon backed up behind her enough water to lift her over the shoal and send her on down the stream.—Harper's Weekly.

The Boy for a Cold.

Bishop Olmsted, of Colorado, was making a Christmas address to some Denver children.

"I had a heavy cold on Christmas day," the bishop said, smiling. "Do full justice to the turkey, to cranberry sauce, to plum pudding, to all the good things."

"But don't give way to gluttony. Don't gloat over your Christmas dainties like a Hala boy I know."

"This boy said one Christmas morning:—

"My, I wish I had a cold!"

"Why?" asked his brother.

"Cause mother says to feed a cold, and if I had one to-day, wouldn't I feed it, though!"

Satisfied Sense a Duty.

Although the Australian aborigine has his vendetta it is not always revenge that he seeks. Darwin tells of a native servant of a West Australian magistrate who went one day to his master, saying that one of his wives had died. He must go away, therefore, to a distant tribe and spear a woman to satisfy his sense of duty to the dead woman. "If you do, I'll send you to prison for life," said his master. For a year the man hung about, looking wretched and ill and complaining that he could neither eat nor sleep, as the spirit of his wife haunted him because he had not taken another life for hers. At last he disappeared. A year later he returned in high condition. There was no legal evidence against him, but it was known that he had gone to a distant tribe, had speared a woman to death and, so, as he thought, appeased the spirit of his departed wife.

City Ordinance.

An ordinance granting to Alex Walker a year electric light and power franchise in the City of Lancaster, Kentucky.

Whereas, the City of Lancaster, Kentucky, through its City Council by ordinance duly passed and adopted at its regular meeting held at the Police Court Room, in the City of Lancaster, Ky., on June 10, 1907, and thereafter published and recorded as required by law, created an electric light and power franchise in the City of Lancaster, Ky., running from July 1st, 1907 for the period of ten years thereafter and provided for the advertisement for and receiving of bids therefor, upon the term limitations and conditions therein set out; and whereas pursuant to the provisions of said ordinance the Mayor of the said city advertised said franchise to be publicly received in the Police Court Room in the City of Lancaster, Ky., on the 22nd day of June, 1907, between the hours of 11 o'clock a. m. and 2 o'clock p. m., and whereas said Mayor did on said day at said time and place publicly receive bids for said franchise, and on the 23rd day of June, 1907, at an adjourned regular meeting of the City Council, held on said day, June 1907, and at regular meeting held July 1st, 1907, in the Police Court Room, in the City of Lancaster, Ky., and whereas said Walker's bid was \$5000 for said franchise, and he would furnish 1200 c. p. arc lights to the city at \$5.00 per month each, and 32 c. p. incandescent lights at 75c per month each, and where the City Council of said city has here tofore at the last two meetings aforesaid awarded to said Walker the said franchise upon the terms, limitations and conditions of said ordinance creating said franchise, and whereas said Walker has paid to the said City the sum of Five dollars which is the amount of his bid for said franchise and agreed to comply with all the terms, limitations and conditions of said ordinance creating said franchise, Now therefore—

The City Council of the City of Lancaster, Kentucky, do ordain as follows:—

That there be and there is hereby granted to Alex Walker upon the terms, limitations and conditions hereinafter set out, the right to construct, maintain and operate an electric lighting and power plant or system in the City of Lancaster, Kentucky, for the period of ten years from and after the 1st day of July, 1907, for the purpose of making and furnishing electric lights for general lighting purposes and for generating and furnishing electric power, and to do all things usual or incidental to such plant or system, including the right and privilege for right of way over, along, across or under the streets, avenues, alleys and other public places of said city for the purpose of erecting, maintaining and operating a line of lines of wire or other electrical conductors to be used for transmitting electricity either by underground or overhead system for the purpose of furnishing and distributing electric light and power for any purpose at any point within said city, not contrary to the provisions of any regulations prescribed or that may be prescribed by the City Council of said city from time to time, and the right of erecting and maintaining all necessary poles, wires, conduits, connections, equipment and appliances necessary or proper to the construction or maintenance of such plant or system to well carry out the purpose thereof in accordance with the conditions and limitations of this ordinance.

(2) That the terms, limitations and conditions upon which this franchise is granted, are as follows:—

(1) That said Walker or his assigns shall begin the construction of said electric lighting and power plant within sixty days from and after the final adoption and publication of this ordinance, and shall have complete and have same in operation not later than January 1st, 1908; and all light service from and after July 1st, 1907, shall be furnished under this franchise.

(2) That said electric light and power plant shall be of at least 100 kilowatt capacity and shall be equipped with two or more dynamos, one of which shall have a capacity of not less than 50 kilowatt, and be also provided and equipped with one or more engines of sufficient capacity to operate said dynamos, and all engines, dynamos and other electrical appliances shall be the best and of such design as to insure satisfactory and the best service. The capacity of said plant in the matter of engines and dynamos shall be increased from time to time if and as it may be necessary to furnish efficient light service in said city, and the capacity of said plant shall at all times be such that the dis-abling of any boiler, engine, generator or other unit or the cutting out of any such unit for repairs or cleaning will not effect the efficiency of the light service.

(3) That the city shall have the right, thru its employees and officials, to inspect and test the lights and the efficiency of lights furnished by the owner of this franchise at any and all times, and the owner of this franchise shall furnish and keep convenient at all time for use by said city and its agents for such inspection or test, the best instruments and apparatus.

(4) That no post, pole or construction of any kind shall be erected on the streets, alleys or public ways of said city except at such a point as may be designated by the Street Committee or other employee or agent of the City Council of said city, and all posts or poles shall be erected and maintained in a vertical position and as erected and maintained and wires placed as not to interfere at any time

with travel on or use of the streets, alleys, public ways or sidewalks of said city by the public, or damage or injury to public or private property, or risk of any person, corporation or company that may be now operating under franchise or grant from said city. And the materials, locations and construction of all poles, conduits, wires and other fixtures and appliances incident to the construction and operation of either overhead or underground systems shall be according to the best engineering practices and subject to the inspection, approval and control of any engineer elected by said city. Any repairs on the streets, public ways or sidewalks of said city rendered necessary by the erection or maintenance of poles or caused by the erection or maintenance of said plant shall be done by and at the expense of the owner of this franchise. All wires upon poles shall be not less than twenty-five feet above the street or ground and shall be placed at greater or less height or at such height above ground when and wherever so directed by said city or its authorized agent. All poles shall be straight and uniform, strong and substantial. All wires shall be so maintained at all times as not to endanger life, and all wires, conductors and appliances for the transmission of electric current shall be thoroughly insulated and shielded so as to render same harmless to touch or upon contact when carrying current. The alleys-ways are to be used as much as practicable for setting poles, and all posts or poles and said entire system are to be so constructed and maintained as not to interfere with or obstruct the flow of water in any gutter or drain, and the entire system shall always be kept in good order and condition and the service rendered shall be good and efficient.

(5) That the said Walker, his representatives or assigns shall furnish to the said city and the said city shall use during the life of this franchise for public lighting in said city not less than twelve (12) arc lights of 1200 candle power each and thirty (30) incandescent lights of 25 candle power each, and shall furnish to said city additional lights, either arc or incandescent, of such candle power in such numbers, at such places and at such times as the said city may require, at the following prices, to wit:—for arc lights of 1200 candle power five dollars (\$5.00) per month each, and for incandescent lights of thirty two (32) candle power seventy five cents per month each, and for lights of other candle power a sum proportioned according to the candle power with the foregoing prices for 1200 arc and 32 candle power lights. All lights are to be placed wherever the said city may require, and are to be renewed from time to time and not allowed to burn below their standard average efficiency.

(6) That all public lights shall be kept burning at their nominal standard power during each and all nights of every month during the life of this franchise from fifteen (15) minutes after sunset until 1 o'clock, A. M., except during such one of any night or portion of any night before 1 o'clock, A. M. that the moon furnishes light equal to that furnished by said street lights on dark nights.

(7) That for the failure of any street or public lamp or lamps to furnish light or to furnish light of nominal standard power, the owner of this franchise at the time of such failure shall pay to the said city for each lamp so failing to furnish light as aforesaid the sum of fifty cents per night, if the lamp be an arc light, and twenty-five cents per night if the lamp be an incandescent light; provided a satisfactory cause for such failure is not shown to the city council.

(8) That any electric light or power desired by said city at any time for other than street lighting purposes shall be furnished by the owner of this franchise to the said city at a rate of charge not to exceed that made to private consumers.

(9) That all service to private consumers and for commercial purposes shall be subject to rates, schedule, &c, to reasonable regulation and control by the said city by ordinance.

(10) That light service to private consumers and for commercial purposes may be by either meter or flat rate at the option of the consumer, and where the meter rate is used meters shall be supplied by and at the cost of the consumer if less than five lights of 16-candle power each are used and at the cost of the owner of this franchise if five or more such lights are used.

(11) That the owner of this franchise shall furnish lights to any and all persons at any and all points and localities within the said city, when demanded upon the terms and under the conditions of this franchise and the ordinances of said city relative thereto.

(12) That said Alex Walker, his successors and assigns shall give good and solvent bond to said city in the sum of \$3,000.00 for the benefit of whom it may concern that all and sundry the provisions terms and conditions of this franchise shall be kept and performed in good faith, and said bond shall be kept in force and continue during the life of said franchise, and shall be for the protection of said city and for the protection and benefit of the citizens of said city who may be users of electric light or power, for the fulfillment of the conditions upon which this franchise is granted, and the failure to keep said bond in force as hereby required at any time shall be cause for annulling and forfeiting this franchise at the option of said city, and the said city may require the renewal of said bond from time to time if and as it may become insufficient.

(13) That the failure upon the part of said Walker or the owner of this franchise to commence the construction of said plant within the time herein provided, or the failure to complete said plant within the time here provided, or any subsequent violation of the restrictions or conditions of this ordinance granting this franchise or the one creating same, shall at the option of said city annul and forfeit this franchise, and the said provisions shall apply to any and all successors and assigns of said Walker.

(14) That where and when the word city is used herein it shall refer to and mean the said city of Lancaster, Kentucky.

Attest J M Duncan, Mayor.

C W West, City Clerk.

WAS GIVEN UP TO DIE.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured."

TWO SIZES, 50c AND \$1.00.

SOLD AND RECOMMENDED BY R. E. McRoberts, Druggist.

Ulcer of the Stomach

Insidious Nature of the Disease—How to Recognize and Cure It.

Ulcer of the stomach may exist for years without very marked symptoms, excepting those caused by indigestion. It is due to an inflammation, which affects the membrane of the stomach so that it is eaten away by the gastric juices.

In good health, the stomach reabsorbs the action of the gastric juices, but when weakened, the membrane is badly nourished and the digestive fluids act upon it as well as upon the food, keeping up until perforation of the stomach occurs. In advanced cases of ulcer of the stomach there is much discomfort after eating, with a constant gnawing sensation between meals, pain from the pit of the stomach back to the shoulder blades.

At the first symptoms of indigestion, treatment should at once be started with Mi-na. This is a scientific remedy adapted specifically to one purpose, the cure of stomach troubles. It is so uniformly successful that a signed guarantee is given with every 50 cent box that the money will be refunded if it does not cure.

Mi-na is not a patent or secret remedy, but is a combination of the purest and most reliable of remedies for strengthening the digestive organs and building up the whole system. Use it for a few days and there is no reason why you should not be able to eat any food you like at any time without fear of distress.
